Anantha Yeshaswy C A

Software Engineer at WiseTech Global
Macquarie Park, New South Wales, Australia

Summary

Passionate Senior Software Engineer with 19 years of experience across Shipment & Logistics and Telecommunications. Focused on AI-enabled software automation, designing agentic workflows that accelerate feature implementation, test generation, and code review while reducing repetitive engineering work. Built custom AI tooling for country-specific tax ID generation, software licensing, and compliance discovery across 50+ countries, improving delivery speed and manual-effort reduction. Hands-on technologist with deep expertise in OOP, strict TDD, CI/CD, and robust software design. Proven technical leader with experience mentoring engineers, coordinating priorities as an informal lead, and supporting Agile delivery as a Scrum Master with PSM I certification.
